HSE Graduate School of Business was founded in 2020 following the reorganization and integration of 11 HSE University subdivisions with the aim of developing as a world-class Russian business school. Three GSB Master programmes are ranked 34-51 in the QS global ranking. Its unique ecosystem includes leading global business schools, along with partnerships with leading Russian and international firms.

The Graduate School of Business bases itself upon the world-leading model of the university business school. It is a school within the University that brings together all business programmes and courses of different levels of study, ranging from Bachelor to EMBA programmes. What sets the Graduate School of Business apart is its focus on educating and developing globally competitive and socially responsible business leaders for Russia's emerging digital economy.
